Software engineer with hands-on experience building web applications using the MERN stack. Skilled in API integration, responsive design, and developing end-to-end features, with project and internship experience.

WORK HISTORY

Frontend Engineering - Intern   Nov 2025 - Feb 2026

Young Innovations Pvt. Ltd ⤢

- Developed responsive user interfaces using React and Next.js with TypeScript, implementing component-based architecture and reusable UI patterns.
- Integrated REST APIs and implemented client-side state management for dynamic application data.
- Applied modern web performance techniques and maintained code quality using ESLint, Prettier, and modern build tooling.

Full-stack Developer - Intern   Jan 2025 - March 2025

Ayata Inc. Pvt. Ltd ⤢

- Developed scalable and reusable UI components using React, following modular folder structures and modern state management practices.
- Built and maintained backend services using Node.js and Express.js, designing REST APIs and integrating relational and NoSQL databases including PostgreSQL, MongoDB, and MySQL.

EDUCATION

National College of Computer Studies   2020-2025

Bachelor in Information Management | ***CGPA 3.56***   *Kathmandu, Nepal*

PROJECTS

Social Media ⤢ | React.Js, Node.Js, Mongodb, Express.Js, TailwindCSS,Typescript

- Built a full-stack social media platform using React and Node.js/Express with REST APIs, authentication, and MongoDB, implementing features such as infinite scrolling, real-time chat, and dynamic engagement systems.

Recipe Blog Platform ⤢ | React.Js, Node.Js, Mongodb, Express.Js, TailwindCSS

- Developed a MERN stack recipe blog with role-based access control, admin-only publishing, and structured content management, delivering a responsive and secure full-stack platform.

Kimdo Pashmina ⤢ | React.Js, Node.Js, Mongodb, Express.Js, TailwindCSS

- Built a responsive e-commerce website for Kimdo Pashmina with product catalog, cart, and order management, integrating Khalti payment APIs for transaction processing.

Revents ⤢ | React, TailwindCSS, Firebase, Typescript

- Built Revents, a modern event management web app using React and Tailwind CSS, enabling users to create, discover, and manage events with features like authentication, event participation, and profile management.

SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, SCSS, TanStack Query, zod, React-Hook-Form, Redux, Context API, Zustand
- **Backend:** Node.Js, Express.Js, Supabase
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, Vite, ESLint, Prettier, Figma
- **Soft Skills:** Problem-Solving, Collaboration, Adaptability, Communication, Attention To Detail, Learning Agility, Proactive Mindset
